

Paudhagiri

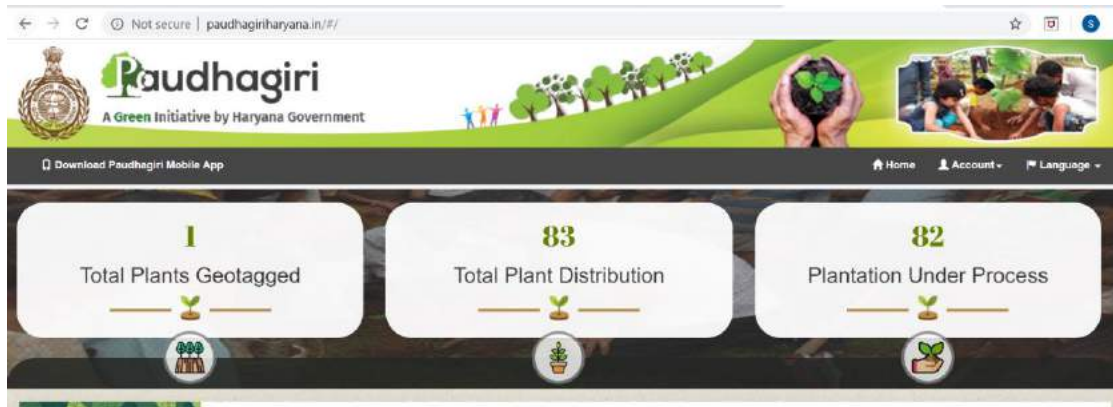

Paudhagiri is an initiative by the Government of Haryana to increase green cover in the state, and make school students the leaders in environment preservation.

Under this initiative:

1. Forest Department will distribute saplings to schools which have classes 6-12
 2. Schools will update the inventory of saplings received on the Paudhagiri portal (<http://paudhagiriharyana.in/#/>)
 3. Schools will distribute the saplings to the students from classes 6-12
 4. Schools will help students geotag their saplings in the ongoing monsoon season on the Paudhagiri mobile app (can be downloaded from the portal)
 5. After every 6 months, the student will report the status of the plant by geotagging it again
 6. If the plant is surviving, the student will receive an award of Rs.50
 7. The student will continue to nurture the plant for 3 years
-

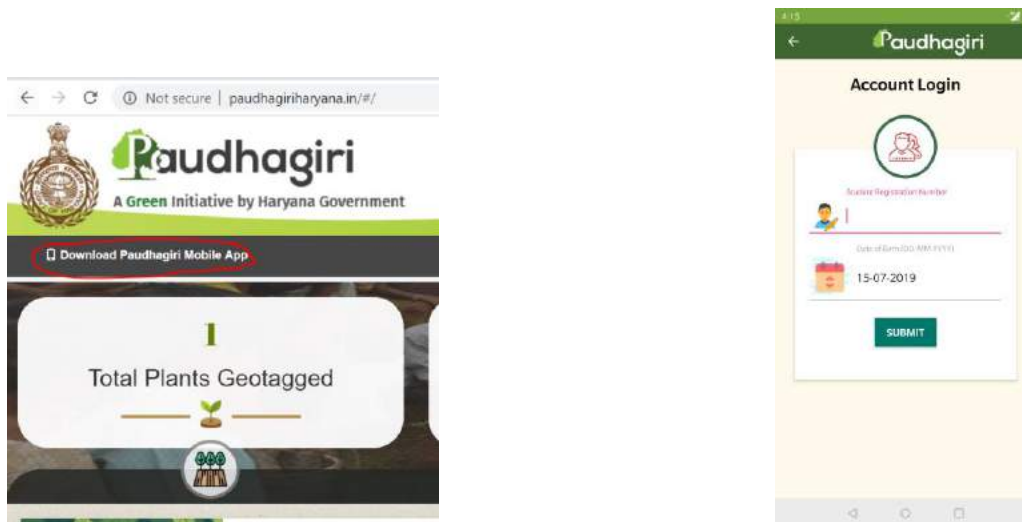

Features of Paudhagiri portal (<http://paudhagiriharyana.in/#/>)

- ✓ School code based login
- ✓ OTP based audit trail
- ✓ Inventory management of saplings
- ✓ View plantation done by students
- ✓ View district wise plantation performance

Features of Paudhagiri android app (Download app from the Paudhagiri portal)

- ✓ SRN based login
- ✓ Upload selfie with plant
- ✓ View plantation history

Guidelines:

- Only school nodal heads should update the inventory on portal
- Photo to be uploaded should clearly show student with the sapling / plant
- Plants have to be geotagged for 2018 and 2019 separately. Detailed instruction manual circulated separately
- For any issues, email at - academiccellhry@gmail.com
